

"By fire's light and cinnamon's embrace, our hearts align in this sacred space. Candle's flame burns bright with true desire, make them feel my warm love from afar."

Welcome a newfound connection with the warmth of cinnamon in this **Make Them Miss You spell**. Radiate loving energy that draws longing hearts closer to you. ✨

This spell comes from one of our coven's *oldest Grimoires*, but it's been updated for a modern-day court case.

We can perform this ritual for you and teach you how to do it for yourself.

Who Are We?

Our coven is a family tradition stretching back a *long, long time*. Our coven Grimoire has been passed between generations, and now, we're adapting it for the digital age.

We aim to bring a new age of digital witchcraft into the modern day. Adapting ancient magick to the present and making it available to spiritual seekers worldwide.

Our coven performs rituals several times a week and does our best to support the spiritually gifted in unlocking their own power.

Let Us Cast For You

Don't let *anyone* tell you that Wicca is something only the special or few can do. *Anyone* can learn. **However, we can do this entire ritual for you if you'd like.**

It's *entirely optional* to have us cast for you. But if you [click here](#), we'll ask you a few questions about the focus and goal of your spell and perform the entire thing for you.

Note: This is our [priority spell request](#) and is *not* publically available (so please don't spread it around).

There's an option for *when* you want your ritual performed. With this priority request, we'll put you right at the front, so selecting 'next available' is often the same day.

We *might* email you with follow-up questions before your ritual is performed, but often (if you've given us enough to work with), we'll perform it that day (or night) and email you once finished.

If you'd like us to cast for you - [click here](#). If not, please continue on, and we'll teach you how to do this ritual yourself.

Casting It Yourself

Note: If you already have your own practices for spellwork, *feel free to include them*. **Always** work with your own inner strengths, so feel free to add to our ritual as you like.

Before beginning, we *always* create a protective circle around our space. Sometimes spiritual work can attract the attention of negative entities or energies.

A protective circle serves as a barrier to shield practitioners from these potentially harmful forces, creating a safe and sacred space for conducting rituals and spellwork.

Casting a Protective Circle

Casting a circle is one of the basic practices of witchcraft. To begin any ritual or spell we need a sacred magickal space. In very rare cases, magickal work can attract the attention of unwanted entities and a protective circle prevents them from interfering.

It's simple but important to get right and should be done every time before casting.

A simple circle (for small spells) can be done by placing your finger on the ground (or the air around you) and turning 360 degrees clockwise. Make sure you lean forwards and give yourself plenty of space within the circle to work. Repeat it three times, and while doing so you can chant out loud or within your head:

*I cast this circle three times three. Light protect me, hear my plea. **So mote it be!***

After you're finished hold an image in your mind's eye of the circle of white light now surrounding you. If you find focusing on the circle difficult, you can draw the circle around you with chalk or salt.

Once your circle is cast you can continue the rest of the ritual.

Once finished, it's good practice to close the circle after you by tracing your finger anti-clockwise along where the circle was.

Now that your circle is prepared, we can perform your ritual.

You Will Need

- **Cinnamon** – A stick or ground cinnamon for its warmth and loving energy
- **Small candles** – Preferably pink or white, to evoke compassion and purity
- **A piece of paper** – To write down intentions and desires
- **Pen with red ink** – Symbolizes passion and deep connections
- **Rose petals** (optional) – Infuses the spell with the essence of love

Preparing the Ritual

1. **Cleanse your space** – Tidy up and remove any unnecessary clutter to facilitate positive energy flow.
2. **Meditate** – Clear your mind and focus on your intentions for a few minutes before beginning the ritual.
3. **Gather your materials** – Ensure you have all the required items mentioned previously within reach.
4. **Create an altar or sacred space** – Set up a comfortable area where you can arrange your materials and focus on the spellcasting.
5. **Choose an appropriate time** – Perform the ritual during a new moon or waxing moon phase for optimal results in attracting connection and growth.

Casting the Spell

1. **Light the candles** – Begin by lighting your pink or white candles and arranging them in a circle to create an inviting and loving atmosphere.

2. **Write your intention** – On a piece of paper, write down the name of the person you want to miss you and your intention, stating why you wish for their longing.
3. **Add cinnamon and rose petals** – Sprinkle some cinnamon (stick or powder) on the written intentions while focusing on its warmth drawing love to you. Add a layer of rose petals on top if available, enhancing the loving energy.
4. **Recite the Wiccan chant** – Close your eyes, focus on your heart's desires, and say: *“By fire’s light and cinnamon’s embrace, our hearts align in this sacred space. Candle’s flame burns bright with true desire, make them feel my warm love from afar.”*
5. **Seal the spell** – Carefully fold the paper with the added ingredients inside, so nothing falls out. Place it underneath one of the candles while visualizing connections being made stronger despite distance.
6. **Finalize and give thanks** – Allow the candles to completely burn down, sealing your intentions into positive energy that connects you regardless of distance. Afterward, offer gratitude to nature for assisting in casting this spell.

Making Your Spell More Potent

If you feel like you need to see a faster result or need more strength in your cast, there are some things you can do to make your cast the most potent.

1. **Enhance your focus:** Take time to meditate and clear any distractions before performing the spell, allowing for stronger concentration on your intentions.
2. **Choose a meaningful moon phase:** Casting the spell during the waxing moon or a full moon can amplify its effect, as it aligns with the natural lunar energy of growth and manifestation.
3. **Surround yourself with love symbols:** Use a rose-quartz stone or wear an article of clothing linked to love and affection to amplify the loving energy surrounding you while casting the spell.
4. **Incorporate personal connections:** Emphasize attachment by adding an item belonging to both you and your intended person (e.g., a picture together) inside the bag or placing it near your space during the ritual.
5. **Blend in essential oils:** Anoint your candle, spell bag, or space with diluted rose, jasmine or lavender essential oils—known for their properties related to love—to magnify your intentions.
6. **Repeat over time:** Recast this gentle spell over several weeks at regular intervals for reinforcement of its purpose within the universe.
7. We have a ["magick ability test"](#) created to help you find your natural affinities. If you're struggling to see results with your spell casting - [take the test](#), and sometimes a small tweak to make a ritual fit more into your natural strengths can have a **big** impact.

A common practice with spellwork like this is to re-cast the spell. We can [re-cast this spell for you](#), but *please* wait for at least 7-days before requesting a re-cast.

Important

No matter if you're adding these spells to your own book of shadows or having us cast it for you. Spellwork like this should be considered for **entertainment purposes only**.

We can't guarantee results (nobody can) and our goal is to work *with* the universe and its energy.

There are many different beliefs about how Wicca can (or *should*) work. We won't press our beliefs on you but witchcraft **is not intended to replace legal, financial, medical or professional advice**.

Use your spellwork practices to *support you*. Don't let it hold you back.
